

NEOTROPICAL BIRDING INDEX-PART 2

Numbers 10 - 11 (2012)

Compiled by Raymond Jeffers

Jocotoco Antpitta
Ecuador, 2011

Contents – Sumário – Contenido

All papers	Papéis	Artículos	4-5
Authors and papers	Autores e papéis	Autores y artículos	6-7
Bird species	Espécies de aves	Especies de aves	8-17
Countries	Países	Países	18
Plates	Pranchas	Láminas	19-22

Interpretation and tips – Interpretación y códigos

Page numbers have a letter code as a guide to the nature of the reference, except for the indices for all papers and plates.

BCE	Birding at the Cutting Edge
BNB	Better Neotropical Birding
BS	Birding Sites
CB	Capital Birding
DISC	Discoveries
F	Feature
FC	Front Cover
FEED	Feedback
GTB	Globally Threatened Bird
IW	Identification Workshop
NB	New Book
PH	Photospot
SLS	Splits,Lumps,Shuffles

Please note the following in respect of each of the five indices:

All papers- this lists all papers. Papers are divided into BCE, BNB, BS, CB, DISC, F, FC, GTB, IW, NB, PH, or SLS.

Authors and papers-this is an alphabetical list of all papers by author.

Bird species-this lists bird species (named in Latin) if they appear in the title or sub-heading of a paper, except in the case of papers concerning BS and SLS, for which most species listed are listed.

Countries and territories-this lists each country that has been especially featured in a paper, and the countries are divided by region.

Plates-this lists all plates of birds (including FC) and most maps.

NB: the index of Bird species and the index of Plates are mutually exclusive. Thus, if you are searching for a particular species irrespective of whether it appears in the text or a photo (or drawing) you need to search both indices mentioned.

Three final points:

First, when using the index on a computer, the 'Find' function can be used to assist in searching for an entry.

Second, author names have been checked for accuracy, but apologies to anyone whose name remains incorrectly cited.

Third, if you spot any errors please email the editor of Neotropical Birding with your suggested correction. Many thanks.

Index of Papers –Papéis –Artículos

(The papers are segmented by the subject heading that appears in the contents page of Neotropical Birding. First column shows title of article; second column is the author (s); and third column gives the relevant issue number followed by page number (s).)
