

Photospot: Banded Ground-Cuckoo *Neomorphus radiolosus* in Ecuador

Sam Woods

Enigmatic, elusive and striking, Neomorphus ground-cuckoos constitute many Neotropical birders' dream birds. Accordingly, a reliable, photographable Banded Ground-Cuckoo Neomorphus radiolosus within an easy drive of Quito, Ecuador, in early 2022 was bound to attract attention...

All photographs are of Banded Ground-Cuckoo *Neomorphus radiolosus* (Endangered), taken at San Jorge Eco-lodge de Milpe, Pichincha, Ecuador.
