

Noteworthy bird records from the northern Cerros del Sira, Peru

S. Jacob Socolar, Óscar González and German Forero-Medina

Received 21 September 2011; final revision accepted 3 August 2012

Cotinga 35 (2013): 26–38

Los cerros del Sira, una cadena montañosa aislada en el centro del Perú, abrigan una avifauna distintiva pero poco estudiada. En julio y agosto del 2010, una expedición ornitológica visitó las montañas y registró varias aves interesantes. Entre ellas, *Scytalopus parvirostris*, *Contopus nigrescens* y *Myiotheretes fumigatus* no habían sido reportadas antes en esta localidad. Ocho especies más han sido reportadas previamente en el extremo sur de las montañas, pero nunca en la parte norte, la cual queda separada de la parte sur por un filo que baja a 1.000 msnm. Algunas otras especies, incluyendo *Pauxi koepckeae*, *Cichlopsis leucogenys* y *Tangara phillippii*, son de interés especial por su rareza, sus distribuciones limitadas o las elevaciones extremas en que fueron registradas.

A number of rare, poorly known and range-restricted bird species occur in the isolated foothills near the east slope of the Peruvian Andes, a region designated as an Endemic Bird Area by BirdLife International⁹. The Cerros del Sira of central Peru, separated from the main Andean chain by the río Pachitea and a broad swath of lowlands, harbour several of these birds, including at least three taxa endemic to the Sira^{5,8,13} and numerous species largely confined to outlying Andean satellites. The potential for novel ornithological discoveries on the Cerros del Sira was highlighted by the recent finding of a new *Capito* barbet in the south of the range⁸.

The Sira are also distinctive for the unique assemblage of Andean species that occupies their upper slopes. The range's isolation produces a pronounced 'island effect' near its peaks, with a substantial species deficit compared to similar elevations in the main Andean chain. This situation motivated the earliest ornithological expeditions to the Sira, which provided a test of the mechanisms governing the altitudinal distributions of Andean birds^{11,12}. These early surveys resulted in the discovery of the endemic taxa *Pauxi koepckeae* and *Tangara phillippii* as well as the first published bird list for the mountain range¹².

Since Terborgh and Weske's initial expeditions in 1969–72, few ornithologists have visited the Sira and its unique bird community remains poorly known. Expeditions in 2001 and 2008 furnished valuable data concerning the bird assemblages of the Sira and the status of range-restricted taxa, but the 2001 expedition did not reach elevations above 1,600 m⁷, while that in 2008 visited the southernmost extension of the range, separated from the northern massif by a long ridge with saddles as low as 1,000 m⁶. Additional surveys during the last two decades were confined to lowland elevations⁴ or focused on studying a single target species³.

In 2010, we revisited Terborgh & Weske's 1969 transect to examine the avifauna of the montane portions of the northern Cerros del Sira, up to 2,220 m. Elsewhere, we have reported on the elevational range shifts of bird taxa relative to Terborgh & Weske's baseline². Here, we present details of noteworthy bird records resulting from our expedition.

Methods

Birds were surveyed along Terborgh and Weske's original altitudinal transect on the western flank of the Cerros del Sira near the town of Yuyapichis. This transect was described in detail by Terborgh & Weske¹² and Forero-Medina *et al.*². We mist-netted birds in the vicinity of five camps, located at c.690 m, 1,310 m, 1,570 m, 1,970 m and 2,220 m, respectively (Table 1). We briefly mist-netted at an additional camp near 1,750 m. All elevations were determined by GPS.

To supplement mist-netting effort, we recorded birds opportunistically by sight or sound along the entire transect. The transect was confined to a narrow ridgeline from 690 m to 2,220 m, the highest point surveyed. Where possible, we descended from the ridge along collateral ridges or the steep slopes towards streams. When possible, noteworthy birds

Table 1. Elevations and locations of mist-netting localities, and survey effort.

Elevation	Coordinates (WGS 84)	Days
690 m	09°28'48"S 74°46'59"W	5
1,310 m	09°25'55"S 74°44'56"W	5
1,570 m	09°25'30"S 74°44'02"W	5
1,750 m	09°25'12"S 74°43'48"W	2
1,970 m	09°25'23"S 74°43'12"W	4.5
2,220 m	09°25'26"S 74°42'50"W	4.5

Table 2. Montane* species not previously recorded in the northern Cerros del Sira.

* This list does not include species that presumably occur in the lowlands surrounding the Sira, even if we obtained the first record from the Sira proper.

Evidence:

P Mist-netted (photo)

V Sound-recorded

S Sight or aural record without documentation

Scientific name	English name	Elevations and dates	Evidence
<i>Patagioenas fasciata</i>	Band-tailed Pigeon	2,150 m, 11 August	V
<i>Ciccaba albiceps</i>	Rufous-banded Owl	1,970 m, 9 August	V
<i>Pulsatrix melanota</i>	Band-bellied Owl	750 m, multiple dates; sound-recorded 21 July	V
<i>Colibri coruscans</i>	Sparkling Violetear	2,220 m, 17 August	P
<i>Phlogophilus harterti</i>	Peruvian Piedtail	1,000 m, date unknown; 1,310 m, 24 July	P
<i>Momotus aequatorialis</i>	Andean Motmot	1,570 m, 1 August	P
<i>Scytalopus parvirostris</i>	Trilling Tapaculo	2,150 m, 15 August	V
<i>Elaenia albiceps</i>	White-crested Elaenia	690 m, 22 July	P
<i>Hirundinea ferruginea</i>	Cliff Flycatcher	400 m, 21 July	S
<i>Contopus nigrescens</i>	Blackish Pewee	390 m, 21 July	S
<i>Myiotheretes fumigatus</i>	Smoky Bush Tyrant	1,970–2,050 m, 10–11 August	V
<i>Myiodynastes chrysocephalus</i>	Golden-crowned Flycatcher	1,950 m, 10 August	V
<i>Piranga flava</i>	Hepatic Tanager	2,220 m, 16 August	P
<i>Cacicus uropygialis</i>	Scarlet-rumped Cacique	1,970 m, 11 August	S

were sound-recorded using a Sennheiser ME-66 shotgun microphone and Tascam DR-07 digital recorder. Recordings are deposited in the online xeno-canto sound library (www.xeno-canto.org).

Avifauna

We recorded 214 bird species at ≥ 690 m and an additional 13 bird species exclusively below 690 m, but we invested little effort in the latter region. We recorded a total of 31 species not detected by Terborgh & Weske¹² or Mee *et al.*⁷, 21 of these at elevations at ≥ 690 m. A single descent from our transect to the río Negro, a stream emptying into the río Yuyapichis, produced most of the novel records below 690 m. Among those species previously known from above 800 m on the northern Cerros del Sira, we documented elevational range extensions of at least 100 vertical metres (either upwards, downwards, or both) for 64 species. Appendix 1 presents max. / min. elevations for all species we recorded and a fully updated elevational checklist compiled from all expeditions to the northern Cerros del Sira.

Species accounts**Sira Curassow** *Pauxi koepckeae*

This taxon, endemic to the Cerros del Sira, was recently split from Horned Curassow *P. unicornis* as a valid species³. The expedition encountered up to four separate individuals on multiple occasions, with records as low as 1,350 m and as high as

1,686 m. Sound-recordings were obtained and are deposited at xeno-canto. Two individuals had brown plumage similar to the 'barred morph' reported for other *Pauxi* curassows. Our record at 1,686 m is the highest elevation ever reported for this taxon, and extends the known range well into the cloud-forest zone. Habitat at this elevation was characterised by canopy heights of < 10 m, a preponderance of mosses and a significant but patchy element of *Chusquea* bamboo.

Lined Forest Falcon *Micrastur gilvicollis*

This lowland species was trapped in a mist-net on 1 August at 1,570 m, an extraordinarily high elevation for the species in Peru, and far higher than it had previously been recorded in the Sira. It was carrying a short-tailed opossum *Monodelphis* sp. when captured.

Rio Suno Antwren *Myrmotherula sunensis yessupi*

This species' Peruvian range is oddly restricted. The poorly known endemic subspecies *yessupi* has been recorded only in lowland forests near the base of the Andes at a few locations in central Peru. Terborgh & Weske recorded it from the lowlands at the base of their transect (unpubl. data), but the taxon was unrecorded by Mee *et al.*⁷ and Harvey *et al.*⁹. We encountered a male at c.450 m on 18 August as we exited our transect. The bird was associated with a mixed-species flock in *terra firme* forest with a relatively open understorey. We know of no additional records of *yessupi* other than the

type series¹, the records of Terborgh & Weske and a disjunct record from Brazil presumably referable to this subspecies¹⁰.

Scytalopus tapaculos

The taxonomic status of *Scytalopus* tapaculos on the Sira is not well resolved. Terborgh & Weske¹² reported only White-crowned Tapaculo *S. atratus*, but their records pre-date the splitting of Rufous-vented Tapaculo *S. femoralis* from *S. atratus*. Mee *et al.*⁷ reported only *S. femoralis*, but at elevations more characteristic of *atratus*. Harvey *et al.*⁶ reported birds with vocal characters of both *S. atratus* and *S. femoralis* from the southern Cerros del Sira. These species replace one another elevationally, with *atratus*-like birds below 1,600 m and *femoralis*-like birds above 1,700 m. We sound-recorded *Scytalopus* songs consistent with *S. atratus*, *S. femoralis* and Trilling Tapaculo *S. parvirostris*. We found *S. atratus* at the lowest elevations (1,310–1,570 m) on multiple days with a sound-recording from 28 July, *S. femoralis* at intermediate elevations (1,570–1,750 m) on several days with a sound-recording from 16 August, and *S. parvirostris* at the highest elevations (2,150 m) with a sound-recording on 15 August. This is the first record of *S. parvirostris* from the Cerros del Sira.

Blackish Pewee *Contopus nigrescens*

This rare species is known in Peru only from a few isolated sites on outlying ridges, mostly in the north of the country. We observed one at 390 m on 21 July along the río Negro, a tributary of the río Yuyapichis. It was observed flycatching from an arboreal perch beside a clearing associated with the río Negro's narrow floodplain. Although we are certain of our identification, this first record for the Sira should be considered provisional given the lack of documentation.

Smoky Bush Tyrant *Myiotheretes fumigatus*

Not previously recorded from the Cerros del Sira. We detected it twice, at 1,970 m on 10 August and at 2,050 m on 11 August. We obtained sound-recordings on 10 August.

Rufous-brown Solitaire *Cichlopsis leucogenys*

This poorly known species' Peruvian range is restricted to a few isolated ranges. It was encountered in the Sira by Terborgh & Weske (unpubl. data) and Mee *et al.*⁷. We found the species on multiple occasions at two widely separated elevations. At 690 m, records included a mist-netted adult on 16 July and sightings of an apparent family party with two juveniles. Another was netted at 1,570 m on 31 July. These records represent downward and upward elevational range extensions for the species in Peru.

Sira Tanager *Tangara phillippi*

Endemic to the Sira. Graves & Weske⁵ noted the elevational range as 1,300–1,570 m. Mee *et al.*⁷ observed the taxon at 1,350–1,450 m, where it was a common member of mixed-species flocks. Harvey *et al.*⁶ found the tanager at considerably higher elevations, at 1,600–2,200 m. We recorded the taxon on numerous occasions at elevations of 1,310–2,220 m. The tanager was a common participant in mixed-species flocks at 1,350–1,400 m, becoming increasingly rare up to 1,570 m. Our observations above this elevation consisted of a pair with a mixed-species flock at 1,700 m on 16 August and a single female-plumaged bird mist-netted at 2,220 m (the highest point of our transect) on 14 August.

Additional noteworthy species

In addition to the species detailed above, we recorded 11 montane species new for the northern Cerros del Sira but already found by Harvey *et al.*⁶ in the southern Cerros del Sira in 2008 (Table 2). We also documented the presence of numerous additional range-restricted or rare species. Among the noteworthy taxa highlighted by Mee *et al.*⁷, we failed to find only Fiery-throated Fruiteater *Pipreola chlorolepidota*. We encountered many species outside their previously reported elevational ranges in the northern Cerros del Sira. An updated elevational checklist for the northern Cerros del Sira is presented as Appendix 1. For an elevational checklist of the birds of the southern Cerros del Sira, consult Harvey *et al.*⁶.

Acknowledgements

We thank the Conserving Biodiversity in Peru's Tropical Forests While Fostering Climate Change Mitigation Project (BMU-GIZ) at the Reserva Comunal El Sira for their invitation to participate on Expedición Llullapichis and to produce this manuscript. Field work was conducted under permit No. 001-2010-SERNANP-RCES, issued by the Peruvian Servicio Nacional de Áreas Naturales Protegidas por el Estado (SERNANP) and ECOSIRA. Dan Lane and Tom Schulenberg provided helpful comments concerning some records. We thank our field assistants Elmer & Mehler Zang (CN Nuevo Unidos Tahuantisuyo) for their invaluable help in conducting field work and Lily Rodríguez for her assistance with logistical arrangements and support.

Appendix 1. Updated elevational checklist for the avifauna of the northern Cerros del Sira.

Elevational Range Elevational range for the present expedition is given as the min. / max. elevations at which we recorded a taxon. Elevational ranges in **bold** represent extensions of at least 100 vertical metres from previous known range on the northern Cerros del Sira. Elevational range for all expeditions is given as the min. / max. elevations compiled from the present expedition and the observations published in Graves & Weske⁵, Mee *et al.*⁷, Terborgh & Weske¹² and Weske & Terborgh¹³. A few unpublished observations from Terborgh & Weske's effort are also included. Terborgh & Weske¹² included only species shared between the Cerros del Sira and the Cordillera Vilcabamba in their checklist. Their additional records from Sira are largely unpublished (some were incorporated in Mee *et al.*⁷) and their specimens are at the American Museum of Natural History, New York.

Abbreviations used. **L** = lowlands at or below 350 m; **(F)** = observed only as a flyover at this elevation; **E** = extreme or abnormal elevation, apparently outside normal range.

Evidence Applies only when an elevational range is given for the present expedition:

TROGNIDAE				
<i>Pharomachrus pavoninus</i>	Pavonine Quetzal	400	400	
<i>Pharomachrus auriceps</i>	Golden-headed Quetzal		1,030–1,130	
<i>Pharomachrus antisianus</i>	Crested Quetzal		1,450	
<i>Trogon melanurus</i>	Black-tailed Trogon		L	
<i>Trogon viridis</i>	Green-backed Trogon	690	L–900	V
<i>Trogon curucui</i>	Blue-crowned Trogon	1,310–1,570	L–1,570	
<i>Trogon collaris</i>	Collared Trogon	1,310	L–2,220	P
<i>Trogon personatus</i>	Masked Trogon	1,350–2,220	1,350–2,220	P
ALCEDINIDAE				
<i>Megaceeryle torquata</i>	Ringed Kingfisher		L–450	
<i>Chloroceryle amazona</i>	Green Kingfisher		L–500	
<i>Chloroceryle americana</i>	Amazon Kingfisher	400	400	
MOMOTIDAE				
<i>Electron platyrhynchum</i>	Broad-billed Motmot		500	

Scientific name	English name	Elevational range (m)		
		Present expedition	All expeditions	Evidence
<i>Baryphthengus martii</i>	Rufous Motmot	690	690	
<i>Momotus momota</i>	Amazonian Motmot		L	
<i>Momotus aequatorialis</i>	Andean Motmot	1,570	1,570	P
BUCCONIDAE				
<i>Notharchus hyperrhynchus</i>	White-necked Puffbird		400	
<i>Notharchus tectus</i>	Pied Puffbird		750	
<i>Nystalus striolatus</i>	Striolated Puffbird	690–1,350	690–1,350	P
<i>Malacoptila fusca</i>	White-chested Puffbird		L–900	
<i>Malacoptila fulvogularis</i>	Black-streaked Puffbird	1,570	1,450–1,570	P
<i>Nonnula ruficapilla</i>	Rufous-capped Nunlet		L	
<i>Monasa nigrifrons</i>	Black-fronted Nunbird		L–400	
<i>Monasa morphoeus</i>	White-fronted Nunbird		L–690	
<i>Chelidoptera tenebrosa</i>	Swallow-winged Puffbird	L	L	
CAPITONIDAE				
<i>Capito auratus</i>	Gilded Barbet	690–1,570	L–1,570	P
<i>Eubucco richardsoni</i>	Lemon-throated Barbet		L	
<i>Eubucco versicolor</i>	Versicoloured Barbet	1,000–1,570	1,000–1,570	
RAMPHASTIDAE				
<i>Ramphastos tucanus</i>	White-throated Toucan	690–1,350	L–1,350	
<i>Aulacorhynchus prasinus</i>	Emerald Toucanet		690	
<i>Aulacorhynchus derbianus</i>	Chestnut-tipped Toucanet	1,310–1,570	1,130–1,570	P
<i>Selenidera reinwardtii</i>	Golden-collared Toucanet	690–1,350	L–1,450	P
<i>Pteroglossus castanotis</i>	Chestnut-eared Aracari	L	L–400	
<i>Pteroglossus azara</i>	Ivory-billed Aracari		L–950	
<i>Pteroglossus beauharnaesii</i>	Curl-crested Aracari		L–690	
PICIDAE				
<i>Picumnus lafresnayi</i>	Lafresnaye's Piculet		800	
<i>Melanerpes cruentatus</i>	Yellow-tufted Woodpecker		L–690	
<i>Picoides fumigatus</i>	Smoky-brown Woodpecker	1,570–1,750	1,310–2,220	P
<i>Veniliornis affinis</i>	Red-stained Woodpecker		L–900	
<i>Picus leucolaemus</i>	White-throated Woodpecker		750	
<i>Colaptes rubiginosus</i>	Golden-olive Woodpecker	1,350–1,700	1,260–1,970	
<i>Colaptes punctigula</i>	Spot-breasted Woodpecker	L	L	
<i>Dryocopus lineatus</i>	Lineated Woodpecker		L	
<i>Campephilus rubricollis</i>	Red-necked Woodpecker	690	L–800	
<i>Campephilus melanoleucos</i>	Crimson-crested Woodpecker		L–690	
FALCONIDAE				
<i>Micrastur ruficollis</i>	Barred Forest Falcon		690–1,150	
<i>Micrastur gilvicollis</i>	Lined Forest Falcon	1,570	1,570	P
<i>Ibycter americanus</i>	Red-throated Caracara	800–1,350	L–1,350	
<i>Falco rufigularis</i>	Bat Falcon		L–900	
PSITTACIDAE				
<i>Ara macao</i>	Scarlet Macaw		L–690	
<i>Ara chloropterus</i>	Red-and-green Macaw	450–690 (F)	L–800	
<i>Ara severus</i>	Chestnut-fronted Macaw		L–400	
<i>Primolius couloni</i>	Blue-headed Macaw		400	
<i>Aratinga leucophthalma</i>	White-eyed Parakeet	450	L–750	
<i>Aratinga weddellii</i>	Dusky-headed Parakeet		L–400	
<i>Pyrrhura roseifrons</i>	Rose-fronted Parakeet		L–900	
<i>Pionus menstruus</i>	Blue-headed Parrot		L–900	
<i>Amazona ochrocephala</i>	Yellow-crowned Parrot		L–690	
<i>Amazona farinosa</i>	Mealy Parrot	690	L–1,150	
THAMNOPHILIDAE				
<i>Cymbilaimus lineatus</i>	Fasciated Antshrike		L	

Scientific name	English name	Elevational range (m)		
		Present expedition	All expeditions	Evidence
<i>Thamnophilus palliatus</i>	Chestnut-backed Antshrike	1,570	1,380–1,570	
<i>Thamnophilus schistaceus</i>	Plain-winged Antshrike		L–690	
<i>Thamnophilus murinus</i>	Mouse-coloured Antshrike	690	L–900	V
<i>Thamnophilus caerulescens</i>	Variable Antshrike	1,750–1,970	1,310–2,220	P
<i>Thamnophilus aethiops</i>	White-shouldered Antshrike	690	L–690	P
<i>Thamnistes anabatinus</i>	Russet Antshrike		1,310	
<i>Dysithamnus mentalis</i>	Plain Antvireo	1,310–1,570	750–1,570	P
<i>Thamnomanes ardesiacus</i>	Dusky-throated Antshrike		L–900	
<i>Thamnomanes schistogynus</i>	Bluish-slate Antshrike		L–690	
<i>Pygiptila stellaris</i>	Spot-winged Antshrike		L	
<i>Epinecrophylla haematonota</i>	Stipple-throated Antwren		900–1,150	
<i>Epinecrophylla spodionota</i>	Foothill Antwren		750–1,100	
<i>Epinecrophylla ornata</i>	Ornate Antwren		690	
<i>Epinecrophylla erythrura</i>	Rufous-tailed Antwren	450	L–690	
<i>Myrmotherula brachyura</i>	Pygmy Antwren		L–900	
<i>Myrmotherula hauxwellii</i>	Plain-throated Antwren		L	
<i>Myrmotherula axillaris</i>	White-flanked Antwren	690	L–690	
<i>Myrmotherula schisticolor</i>	Slaty Antwren	1,000	1,000–1,570	P
<i>Myrmotherula sunensis</i>	Rio Suno Antwren	450	L–690	
<i>Myrmotherula menetriesii</i>	Grey Antwren	390	L–750	
<i>Herpsilochmus motacilloides</i>	Creamy-bellied Antwren	1,310–1,350	1,310–1,500	
<i>Herpsilochmus rufimarginatus</i>	Rufous-winged Antwren	690–1,000	690–1,000	
<i>Drymophila caudata</i>	Long-tailed Antbird	1,650–2,220	1,400–2,220	P,V
<i>Hypocnemis peruviana</i>	Peruvian Warbling Antbird		L	
<i>Cercomacra cinerascens</i>	Grey Antbird	L–500	L–750	
<i>Cercomacra nigrescens</i>	Blackish Antbird	1,570	1,310–1,570	P
<i>Cercomacra serva</i>	Black Antbird	690–1,000	L–1,000	P
<i>Myrmoborus myotherinus</i>	Black-faced Antbird		L–1,000	
<i>Schistocichla leucostigma</i>	Spot-winged Antbird	1,000	1,000	
<i>Myrmeciza hemimelaena</i>	Chestnut-tailed Antbird	1,350	L–1,350	
<i>Myrmeciza fortis</i>	Sooty Antbird		690	
<i>Pithys albifrons</i>	White-plumed Antbird		L–690	
<i>Rhegmatorhina melanosticta</i>	Hairy-crested Antbird	690	690–900	P
<i>Hylophylax naevius</i>	Spot-backed Antbird		L–1,130	
<i>Willisornis poecilinotus</i>	Scale-backed Antbird	690	L–1,130	P
<i>Phlegopsis nigrromaculata</i>	Black-spotted Bare-eye		L	
CONOPHAGIDAE				
<i>Conopophaga peruviana</i>	Ash-throated Gnat-eater		690	
<i>Conopophaga castaneiceps</i>	Chestnut-crowned Gnat-eater	1,100–1,570	1,100–1,570	P
GRALLARIIDAE				
<i>Myrmothera campanisona</i>	Thrush-like Antpitta	1,000	L–1,000	
<i>Grallaricula flavirostris</i>	Ochre-breasted Antpitta	1,650–1,750	1,310–1,750	P
RHINOCRYPTIDAE				
<i>Liosceles thoracicus</i>	Rusty-belted Tapaculo	1,100	750–1,100	
<i>Scytalopus parvirostris</i>	Trilling Tapaculo	2,150	2,150	V
<i>Scytalopus femoralis</i>	Rufous-vented Tapaculo	1,570–1,750	1,550–1,750	V
<i>Scytalopus atratus</i>	White-crowned Tapaculo	1,310–1,570	1,130–1,570	V
FORMICARIIDAE				
<i>Formicarius colma</i>	Rufous-capped Antthrush		L	
<i>Formicarius analis</i>	Black-faced Antthrush		L–850	
<i>Chamaeza campanisona</i>	Short-tailed Antthrush	1,310–1,350	900–1,350	P,V
FURNARIIDAE				
<i>Sclerurus mexicanus</i>	Tawny-throated Leaf-tosser	1,310	690–1,310	P
<i>Sclerurus caudacutus</i>	Black-tailed Leaf-tosser		L–690	

Scientific name	English name	Elevational range (m)		
		Present expedition	All expeditions	Evidence
<i>Cranioleuca curtata</i>	Ash-browed Spinetail	1,500	1,450–1,500	
<i>Premnornis guttuliger</i>	Rusty-winged Barbtail	1,750–1,970	1,310–1,970	P
<i>Premnoplex brunnescens</i>	Spotted Barbtail	1,200–2,220	1,130–2,220	P
<i>Margarornis squamiger</i>	Pearled Treerunner		2,220	
<i>Pseudocolaptes boissonneautii</i>	Streaked Tuftedcheek	1,750–2,220	1,570–2,220	P,V
<i>Syndactyla subalaris</i>	Lineated Foliage-gleaner	1,310– 2,220	1,310–2,220	P
<i>Syndactyla rufosuperciliata</i>	Buff-browed Foliage-gleaner	1,310–2,220	1,310–2,220	P
<i>Ancistrops strigilatus</i>	Chestnut-winged Hookbill		750–900	
<i>Hylocistes subalatus</i>	Eastern Woodhaunter	850– 1,550	L–1,550	
<i>Philydor ruficaudatum</i>	Rufous-tailed Foliage-gleaner		900	
<i>Philydor erythrocerum</i>	Rufous-rumped Foliage-gleaner	1,000–1,750	1,000–1,750	P
<i>Philydor erythrocercum</i>	Chestnut-winged Foliage-gleaner		L	
<i>Philydor rufum</i>	Buff-fronted Foliage-gleaner	1,000–1,450	750–1,450	
<i>Thripadectes melanorhynchus</i>	Black-billed Treehunter	1,310	1,310–1,450	P
<i>Automolus ochrolaemus</i>	Buff-throated Foliage-gleaner	690–1,570	690–1,570	
<i>Automolus infuscatus</i>	Olive-backed Foliage-gleaner		L	
<i>Automolus rubiginosus</i>	Ruddy Foliage-Gleaner		690	
<i>Automolus rufigularis</i>	Chestnut-crowned Foliage-gleaner		L	
<i>Lochmias nematura</i>	Sharp-tailed Streamcreeper		1,310	
<i>Xenops minutus</i>	Plain Xenops		L–900	
<i>Xenops rutilans</i>	Streaked Xenops	1,570	1,130–1,570	P
<i>Certhiasomus stictolaemus</i>	Spot-throated Woodcreeper		690	
<i>Dendrocindla tyrranina</i>	Tyrannine Woodcreeper		1,310–2,220	
<i>Dendrocindla fuliginosa</i>	Plain-brown Woodcreeper		L–900	
<i>Dendrocindla merula</i>	White-chinned Woodcreeper		L–690	
<i>Sittasomus griseicapillus</i>	Olivaceous Woodcreeper	460–1,000	L–1,130	
<i>Deconychura longicauda</i>	Long-tailed Woodcreeper		690–1,570	
<i>Glyphorynchus spirurus</i>	Wedge-billed Woodcreeper	690–1,570	L–1,570	P
<i>Xiphocolaptes promeropirhynchus</i>	Strong-billed Woodcreeper	690	690–850	
<i>Dendrocolaptes certhia</i>	Amazonian Barred Woodcreeper		L–900	
<i>Dendrocolaptes picumnus</i>	Black-banded Woodcreeper		910–1,310	
<i>Xiphorhynchus ocellatus</i>	Ocellated Woodcreeper	1,000–1,310	750–1,570	P
<i>Xiphorhynchus elegans</i>	Elegant Woodcreeper	690	L–690	P
<i>Xiphorhynchus guttatus</i>	Buff-throated Woodcreeper	690	L–690	
<i>Xiphorhynchus triangularis</i>	Olive-backed Woodcreeper	1,500–1,750	1,310–1,970	P
<i>Lepidocolaptes albolineatus</i>	Lineated Woodcreeper		900–2,220	
<i>Campylorhamphus trochilirostris</i>	Red-billed Scythebill	1,310–1,570	1,310–1,570	P
TYRANNIDAE				
<i>Elaenia albiceps</i>	White-crested Elaenia	690–1,310	690–1,310	P
<i>Campstoma obsoletum</i>	Southern Beardless Tyrannulet	690	690	
<i>Mecocerculus poecilocercus</i>	White-tailed Tyrannulet	1,000	1,000–1,450	
<i>Pseudotriccus pelzelni</i>	Bronze-olive Pygmy Tyrant	1,570	1,350–2,220	P
<i>Corythopis torquatus</i>	Ringed Antpit	800	L–800	
<i>Zimmerius viridiflavus</i>	Peruvian Tyrannulet	1,350–2,220	1,350–2,220	P,V
<i>Phylloscartes ventralis</i>	Mottle-cheeked Tyrannulet	1,350–2,220	1,160–2,220	P
<i>Mionectes striaticollis</i>	Streak-necked Flycatcher	690–2,220	690–2,220	P
<i>Mionectes olivaceus</i>	Olive-striped Flycatcher	400–1,310; 2,220 E	L–1,310; 2,220 E	P
<i>Mionectes oleagineus</i>	Ochre-bellied Flycatcher	690	690–850	P
<i>Leptopogon amurocephalus</i>	Sepia-capped Flycatcher		L	
<i>Leptopogon superciliaris</i>	Slaty-capped Flycatcher	690–1,570	690–1,570	P
<i>Myiobius ornatus</i>	Ornate Flycatcher	1,310–1,570	800–1,570	P
<i>Myiornis ecaudatus</i>	Short-tailed Pygmy Tyrant		L–900	
<i>Lophotriccus pileatus</i>	Scale-crested Pygmy Tyrant	1,310–1,750	1,310–1,750	P
<i>Lophotriccus vitiosus</i>	Double-banded Pygmy Tyrant		L	
<i>Hemitriccus zosterops</i>	White-eyed Tody-Tyrant	690	690–850	V

Scientific name	English name	Elevational range (m)		
		Present expedition	All expeditions	Evidence
<i>Hemitriccus rufigularis</i>	Buff-throated Tody-Tyrant		1,310	
<i>Todirostrum chrysocrotaphum</i>	Yellow-browed Tody-Flycatcher		L-690	
<i>Rhynchocyclus olivaceus</i>	Olivaceous Flatbill		690	
<i>Rhynchocyclus fulvivpectus</i>	Fulvous-breasted Flatbill		1,450	
<i>Tolmomyias assimilis</i>	Yellow-margined Flycatcher	690	L-900	
<i>Platyrinchus mystaceus</i>	White-throated Spadebill	1,310–1,570	1,130–1,570	P
<i>Platyrinchus platyrhynchos</i>	White-crested Spadebill		L-750	
<i>Myiophobus flavicans</i>	Flavescens Flycatcher		1,570	
<i>Myiophobus roraimae</i>	Roraiman Flycatcher	1,350	1,310–1,520	
<i>Myiophobus fasciatus</i>	Bran-coloured Flycatcher		1,970	
<i>Myiobius villosus</i>	Tawny-breasted Flycatcher	1,310–1,500	750–1,500	P
<i>Myiobius barbatus</i>	Sulphur-rumped Flycatcher		L-690	
<i>Terenotriccus erythrurus</i>	Ruddy-tailed Flycatcher		L-690	
<i>Pyrrhomia cinnamomeus</i>	Cinnamon Flycatcher	1,570–2,220	1,450–2,220	P
<i>Hirundinea ferruginea</i>	Cliff Flycatcher	450	450	
<i>Lathrotriccus euleri</i>	Euler's Flycatcher		690–1,130	
<i>Contopus fumigatus</i>	Smoke-coloured Pewee	1,700	1,130–1,970	
<i>Contopus nigrescens</i>	Blackish Pewee	390	390	
<i>Sayornis nigricans</i>	Black Phoebe	400	L-550	
<i>Knipolegus poecilurus</i>	Rufous-tailed Tyrant	1,750–1,970	1,450–2,220	P
<i>Ochthornis littoralis</i>	Drab Water Tyrant	L	L-450	
<i>Myiotheretes furnigatus</i>	Smoky Bush Tyrant	1,970–2,050	1,970–2,050	V
<i>Ochthoeca pulchella</i>	Golden-browed Chat-Tyrant	1,970–2,220	1,970–2,220	P
<i>Myiozetetes similis</i>	Social Flycatcher		L-450	
<i>Myiozetetes granadensis</i>	Grey-capped Flycatcher		L-450	
<i>Pitangus sulphuratus</i>	Great Kiskadee		L-450	
<i>Myiodynastes chrysocephalus</i>	Golden-crowned Flycatcher	1,970	1,970	V
<i>Myiodynastes maculatus</i>	Streaked Flycatcher		L-900	
<i>Tyrannus melancholicus</i>	Tropical Kingbird		L-400	
<i>Rhytipterna simplex</i>	Greyish Mourner	690–1,310	L-1,310	P
<i>Myiarchus tuberculifer</i>	Dusky-capped Flycatcher		1,310	
<i>Myiarchus cephalotes</i>	Pale-edged Flycatcher	1,570–2,220	1,310–2,220	P
<i>Attila spadiceus</i>	Bright-rumped Attila		L-690	
COTINGIDAE				
<i>Pipreola riefferii</i>	Green-and-black Fruiteater	1,350–2,220	1,310–2,220	P,V
<i>Pipreola frontalis</i>	Scarlet-breasted Fruiteater	1,350–1,575	1,310–1,575	P
<i>Pipreola chlorolepidota</i>	Fiery-throated Fruiteater		1,450–1,500	
<i>Rupicola peruvianus</i>	Andean Cock-of-the-rock	690–1,575	450–1,575	P
<i>Snowornis subalaris</i>	Grey-tailed Piha		1,130	
<i>Snowornis cryptolophus</i>	Olivaceous Piha	1,570–1,750	1,050–1,750	P
<i>Querula purpurata</i>	Purple-throated Fruitcrow	690	L-690	
<i>Cotinga cayana</i>	Spangled Cotinga	690	690	
<i>Lipaugus vociferans</i>	Screaming Piha	690–800	L-900	
PIPRIDAE				
<i>Tyrannetes stolzmanni</i>	Dwarf Tyrant-Manakin		L-600	
<i>Lepidothrix coronata</i>	Blue-crowned Manakin	690	L-1,130	P
<i>Lepidothrix coeruleocapilla</i>	Cerulean-capped Manakin	1,310–1,570	750–1,570	P
<i>Xenopipo holochlora</i>	Green Manakin		690–1,130	
<i>Xenopipo unicolor</i>	Jet Manakin	1,310–1,570	1,130–2,220	P
<i>Pipra pipra</i>	White-crowned Manakin	690–1,570	L-1,570	P
<i>Pipra fasciicauda</i>	Band-tailed Manakin		L-690	
<i>Pipra chloromeros</i>	Round-tailed Manakin	690	L-1,310	P
TITYRIDAE				
<i>Tityra semifasciata</i>	Masked Tityra	690	400–750	
<i>Schiffornis turdina</i>	Thrush-like Schiffornis	1,570	750–1,570	P

Scientific name	English name	Elevational range (m)		
		Present expedition	All expeditions	Evidence
<i>Laniocera hypopyrra</i>	Cinereous Mourner		750	
<i>Laniisoma elegans</i>	Shrike-like Cotinga		1,130–1,310	
<i>Pachyramphus versicolor</i>	Barred Becard		1,450–1,970	
<i>Pachyramphus albogriseus</i>	Black-and-white Becard	1,350–1,570	1,310–1,570	
<i>Pachyramphus marginatus</i>	Black-capped Becard		750	
INCERTAE SEDIS				
<i>Piprites chloris</i>	Wing-barred Piprites	1,350– 1,580	690–1,580	
VIREONIDAE				
<i>Cyclarhis gujanensis</i>	Rufous-browed Peppershrike		1,130–1,570	
<i>Vireolanius leucotis</i>	Slaty-capped Shrike-Vireo		690–1,310	
<i>Vireo leucophrys</i>	Brown-capped Vireo		2,220	
<i>Vireo olivaceus</i>	Red-eyed Vireo		L–900	
<i>Hylophilus hypoxanthus</i>	Dusky-capped Greenlet	690	L–900	
<i>Hylophilus olivaceus</i>	Olivaceous Greenlet		750–850	
<i>Hylophilus ochraceiceps</i>	Tawny-crowned Greenlet		L–900	
CORVIDAE				
<i>Cyanocorax violaceus</i>	Violaceous Jay		L–450	
<i>Cyanocorax yncas</i>	Green Jay	1,350 –2,220	1,350–2,220	P
HIRUNDINIDAE				
<i>Pygochelidon cyanoleuca</i>	Blue-and-white Swallow		L–2,220	
<i>Atticora fasciata</i>	White-banded Swallow	400	L–450	
TROGLODYTIDAE				
<i>Microcerulus marginatus</i>	Scaly-breasted Wren		L–1,130	
<i>Microcerulus bambla</i>	Wing-banded Wren	400	400–750	
<i>Troglodytes aedon</i>	House Wren		L–450	
<i>Troglodytes solstitialis</i>	Mountain Wren		2,220	
<i>Henicorhina leucophrys</i>	Grey-breasted Wood Wren	1,350–2,220	1,310–2,220	P,V
<i>Cyphorhinus arada</i>	Musician Wren		L–690	
POLIOPTILIDAE				
<i>Microbates cinereiventris</i>	Tawny-faced Gnatwren		690–900	
TURDIDAE				
<i>Catharus dryas</i>	Spotted Nightingale-Thrush	1,310–1,570	1,310–1,570	P,V
<i>Catharus ustulatus</i>	Swainson's Thrush		750–1,500	
<i>Entomodestes leucotis</i>	White-eared Solitaire	1,350–2,220	900–2,220	P
<i>Cichlopsis leucogenys</i>	Rufous-brown Solitaire	690 – 1,575	690–1,575	P
<i>Turdus leucomelas</i>	Pale-eyed Thrush		900–1,310	
<i>Turdus lawrencii</i>	Lawrence's Thrush	460	460	
<i>Turdus nigriceps</i>	Andean Slaty Thrush	1,310	900–1,310	P
<i>Turdus serranus</i>	Glossy-black Thrush	1,310–2,220	900–2,220	P
<i>Turdus albicollis</i>	White-necked Thrush	690	L–690	P
THRAUPIDAE				
<i>Paroaria gularis</i>	Red-capped Cardinal		L–450	
<i>Cissopis leverianus</i>	Magpie Tanager		L–450	
<i>Hemispingus frontalis</i>	Oleaginous Hemispingus	1,970	1,310–2,220	P
<i>Trichothraupis melanops</i>	Black-goggled Tanager	1,000 –1,570	1,000–1,570	P
<i>Tachyphonus rufiventris</i>	Yellow-crested Tanager		L–1,130	
<i>Tachyphonus surinamus</i>	Fulvous-crested Tanager	690	L–690	
<i>Lanio versicolor</i>	White-winged Shrike-Tanager	1,000	690–1,000	
<i>Ramphocelus carbo</i>	Silver-beaked Tanager		L–500	
<i>Thraupis episcopus</i>	Blue-grey Tanager		L–450	
<i>Thraupis palmarum</i>	Palm Tanager		L–1,450	
<i>Calochaetes coccineus</i>	Vermilion Tanager	1,350–1,570	1,130–1,570	
<i>Anisognathus somptuosus</i>	Blue-winged Mountain Tanager	1,350–2,220	1,310–2,220	P
<i>Iridosornis analis</i>	Yellow-throated Tanager	1,000 –2,220	1,000–2,220	P

Scientific name	English name	Elevational range (m)		
		Present expedition	All expeditions	Evidence
<i>Chlorochrysa calliparaea</i>	Orange-eared Tanager	900–1,570	900–1,570	
<i>Tangara ruficervix</i>	Golden-naped Tanager		1,450	
<i>Tangara viridicollis</i>	Silver-backed Tanager	1,350	1,310–2,220	
<i>Tangara phillipsii</i>	Sira Tanager	1,310–2,220	1,300–2,220	P,V
<i>Tangara nigrocincta</i>	Masked Tanager	1,000	750–1,130	
<i>Tangara cyanicollis</i>	Blue-necked Tanager	1,100–1,570	L(?)–1,570	
<i>Tangara vassorii</i>	Blue-and-black Tanager	2,220	1,970–2,220	
<i>Tangara nigroviridis</i>	Beryl-spangled Tanager	1,570–2,220	1,130–2,220	P
<i>Tangara cyanotis</i>	Blue-browed Tanager	1,570–1,750	1,310–1,750	
<i>Tangara mexicana</i>	Turquoise Tanager		750	
<i>Tangara chilensis</i>	Paradise Tanager	400–1,350	L–1,350	
<i>Tangara velia</i>	Opal-rumped Tanager		750	
<i>Tangara gyrola</i>	Bay-headed Tanager	460–1,350	L–1,500	
<i>Tangara xanthocephala</i>	Saffron-crowned Tanager	1,570–2,220	1,310–2,220	P
<i>Tangara parzudakii</i>	Flame-faced Tanager		2,220	
<i>Tangara schrankii</i>	Green-and-gold Tanager	460–1,030	L–1,130	
<i>Tangara arthus</i>	Golden Tanager	1,000–1,570	1,000–1,570	
<i>Dacnis lineata</i>	Black-faced Dacnis	460–1,350	L–1,350	
<i>Dacnis cayana</i>	Blue Dacnis	690–1,570	L–1,570	
<i>Cyanerpes caeruleus</i>	Purple Honeycreeper		L–1,970	
<i>Chlorophanes spiza</i>	Green Honeycreeper	1,350	L–1,350	
<i>Iridophanes pulcherrimus</i>	Golden-collared Honeycreeper		1,450	
<i>Hemithraupis flavicollis</i>	Yellow-backed Tanager	900	750–1,100	
<i>Conirostrum albifrons</i>	Capped Conebill		2,220	
<i>Diglossa glauca</i>	Golden-eyed Flowerpiercer	1,970–2,220	1,130–2,220	P
<i>Diglossa caerulescens</i>	Bluish Flowerpiercer	1,570–2,220	1,310–2,220	P
<i>Haplospiza rustica</i>	Slaty Finch		1,970–2,220	
<i>Parkerthraustes humeralis</i>	Yellow-shouldered Grosbeak	750	750	
INCERTAE SEDIS				
<i>Saltator grossus</i>	Slate-coloured Grosbeak	690	L–900	
<i>Saltator maximus</i>	Buff-throated Saltator	1,020–1,570	750–1,570	P,V
<i>Saltator coerulescens</i>	Greyish Saltator		540	
EMBERIZIDAE				
<i>Arremon brunneinucha</i>	Chestnut-capped Brush Finch	1,310–1,750	950–1,750	P
<i>Atlapetes tricolor</i>	Tricoloured Brush Finch	1,970–2,220	1,970–2,220	P
<i>Chlorospingus ophthalmicus</i>	Common Bush Tanager	1,500–2,220	1,500–2,220	P,V
<i>Chlorospingus flavigularis</i>	Yellow-throated Bush Tanager	1,000–1,570	900–1,570	
CARDINALIDAE				
<i>Piranga flava</i>	Hepatic Tanager	2,220	2,220	P
<i>Piranga rubra</i>	Summer Tanager		1,450	
<i>Piranga olivacea</i>	Scarlet Tanager		1,450	
<i>Piranga leucoptera</i>	White-winged Tanager	1,350–1,500	1,310–1,570	
<i>Habia rubica</i>	Red-crowned Ant Tanager	L–900	L–900	
<i>Chlorothraupis carmioli</i>	Carmioli's Tanager	400–1,310	400–1,310	P
<i>Cyanocompsa cyanooides</i>	Blue-black Grosbeak		L–900	
PARULIDAE				
<i>Parula pityayumi</i>	Tropical Parula	1,310–1,570	900–1,570	V
<i>Dendroica fusca</i>	Blackburnian Warbler		1,400–1,500	
<i>Wilsonia canadensis</i>	Canada Warbler		1,450–1,500	
<i>Myiothlypis miniatus</i>	Slate-throated Whitestart	1,000–1,970	900–2,175	P
<i>Basileuterus chrysogaster</i>	Golden-bellied Warbler		750–900	
<i>Basileuterus coronatus</i>	Russet-crowned Warbler	1,310–2,220	1,310–2,220	P
<i>Basileuterus tristriatus</i>	Three-striped Warbler	1,310–1,750	900–1,750	P
<i>Phaeothlypis fulvicauda</i>	Buff-rumped Warbler		690	

Scientific name	English name	Elevational range (m)

ICTERIDAE				
<i>Psarocolius angustifrons</i>	Russet-backed Oropendola		L-500	
<i>Psarocolius decumanus</i>	Crested Oropendola		L-450	
<i>Clypicierus oseryi</i>	Casqued Oropendola	460	460	V
<i>Cacicus cela</i>	Yellow-rumped Cacique		L-750	
<i>Cacicus uropygialis</i>	Scarlet-rumped Cacique	1,970	1,970	
<i>Icterus croconotus</i>	Orange-backed Troupial		L-500	
<i>Icterus cayanensis</i>	Epaulet Oriole		750	
<i>Molothrus oryzivorus</i>	Giant Cowbird		L-450	
FRINGILLIDAE				
<i>Euphonia lanirostris</i>	Thick-billed Euphonia		L-750	
<i>Euphonia chrysopasta</i>	White-lored Euphonia		900	
<i>Euphonia mesochrysa</i>	Bronze-green Euphonia		900-1,130	
<i>Euphonia xanthogaster</i>	Orange-bellied Euphonia	690-1,970	690-2,220	P
<i>Euphonia rufiventris</i>	Rufous-bellied Euphonia		L-900	
<i>Chlorophonia cyanea</i>	Blue-naped Clorophonia	690-1,350	690-1,450
